**Payment Terms:** 60% T/T in advance, 40% T/T before shipment.

**Freight Cost:** we can arrange shipment by sea or by air, due to the freight rate is changing frequently, we recommend to confirm the freight after the goods is ready for shipment. We will provide packing list with weight and size information by then, so that you can ask about the freight rate of your local forwarders and compare with our quotation, if our price is better, then we will provide you a separate freight INVOICE for payment.

**Installation:** We'll debug the machine to best status before shipment, you can setup the machine by yourself with our remote video support. (After the epidemic situation, we can also send engineers to your company for guidance and training if necessary, At present we are unable to send engineers to your company to provide installation and training services, they may bear a great risk of contracting the Covid-19. If the epidemic situation is effectively controlled in the future, we can provide a free 3-day on-site training service. You only need to bear the cost of air tickets and hotels, there is no extra service cost.)

**How to place order:** Firstly, please confirm the model and quantity, then offer your company information in detail, including company name, address, telephone number, contact person etc. Then we'll offer a proforma invoice for payment.

**Warranty Period:** one year, we offer new parts for replacement for free within one year. (Except consumable parts, such as cutting blades).
